

2024

In 2024, the organization actively carried out research, project evaluations, and developed international partnerships. A large share of the activities focused on education, inclusion, and cultural sensitivity. This year, the organization's goal was to continue and expand the application of existing themes and fields of activity. Most activities were oriented toward research and project evaluation – various national and international studies were implemented in the fields of education, inclusion, and cultural sensitivity. Cooperation with key partners, especially the MO Museum and other organizations, was strengthened. The year was also marked by active international expansion – Erasmus+ projects were implemented and initiated, new partnerships were established, and important international applications were successfully secured.

WE WROTE, SUBMITTED, AND IMPLEMENTED PROJECTS:

- A study on an inclusive work environment for LGBT+ employees was completed. Client: AB Ignitis Group. 2023-09 – 2024-02.
- A study was conducted to determine whether and how e-sports help reintegrate students who had dropped out back into the learning process, and what impact it has on education. Client: Vilnius Education and Advancement Centre (VšĮ Vilniaus švietimo ir pažangos centras). 2023-11-24 – 2024-07-15.
